	Urgent	Not Urgent
Important	Do - (Your MVP) ● Read the PDFs uploaded using Python ● Extract assignment names and dates ● Sort extracted tasks chronologically ● Arrange tasks in a checklist	Schedule - (For V2.0+) ● Color code based on course ● Automatically generates subtasks for each assignment ● The task disappears once marked complete
Not Important	Delegate - (Use a library) ● Use pypdf to read PDF files ● Use datetime to work with the assignment deadlines and sort them chronologically ● Use re for pattern matching ● Use argparse so users can directly input any PDF file path	Delete - (Cut it) ● Integrating the deadlines into Google Calendar ● Sets daily reminders for major assignments ● Changes made to deadline are automatically changed in the checklist
